PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years building scalable applications handling 10,000+ concurrent users. Expert in MERN stack, Next.js, Node.js, and cloud technologies (Azure, Vercel). Specialized in architecting high-performance APIs, executing secure RBAC systems, and streamlining performance (30% faster response times, 40% latency reduction). Currently at Damco Solutions building enterprise healthcare and device management solutions. Mentored 10+ developers.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3, SQL **Frontend:** React.js, Next.js, Redux, Tailwind CSS, Zustand

Backend: Node.js, Express.js, REST APIs, GraphQL, JWT, RBAC **Databases:** MongoDB, PostgreSQL

Cloud/DevOps: Azure Storage, Cloudinary, Vercel, Netlify, Render **Tools:** Git, Postman, CRON Jobs, Payment Gateways

PROFESSIONAL EXPERIENCE

Full Stack Developer

Sep 2025–Present

Damco Solutions

Noida, India

QSYS - Peripheral Device Management Platform

- Constructed full-stack web application for remote management and configuration of 500+ network-connected peripheral devices
- Fabricated REST APIs communicating with peripheral devices over network protocols enabling real-time control
- Implemented functionality to remotely update device settings (IP, MAC, DNS, LAN configurations) with 99.9% success rate
- Designed workflows for device restart, reset, and configuration synchronization reducing manual interventions by 80%
- Created secure user interfaces for monitoring and managing multiple devices across 50+ locations
- Integrated real-time device status monitoring and configuration management features with instant updates
- Collaborated with hardware and firmware teams ensuring seamless device communication and control
- Designed responsive dashboards for centralized device administration with comprehensive operational insights

UH Hospital Management System

- Orchestrated admin dashboard for 200+ staff onboarding with audit/event tracking for 500 daily users (10,000+ monthly transactions)
- Structured Node.js/Express/PostgreSQL backend with Azure integration achieving 30% faster response times and 99.8% data accuracy
- Built Next.js/React frontend with real-time monitoring across 15 departments

Full Stack Developer

Apr 2025–Jul 2025

NxtGen Cloud Technologies

Bengaluru, India

- Built frontend features for a cloud hosting platform, streamlining cloud storage purchases, application deployment, and resource management for end users.
- Designed responsive and scalable frontend interfaces using React, Tailwind CSS, and Zustand for state management.
- Delivered a smooth, intuitive, and user-friendly experience enhancing customer satisfaction by 20
- Collaborated with 5-member cross-functional team ensuring efficient workflow and integration with backend services.
- Optimized user interface performance and component reusability reducing load time by 1.5 seconds.

Full Stack Developer
One Hour Study

Aug 2023–Mar 2025
Jodhpur, India

- Established platform connecting 800 students and 200 teachers with 4.6/5 rating and 45% increase in booking conversions
- Executed search/filter functionality reducing teacher discovery time by 60%
- Integrated Razorpay payment gateway processing 50,000+ rupees monthly with 99% success rate; improved teacher retention by 35%

Full Stack Developer
Novulis Consulting

Aug 2022–Jul 2023
Hyderabad, India

Hospital Diagnostic & Laboratory Management System

- Fashioned and maintained comprehensive platform for healthcare organizations managing patient records, diagnostic tests, billing, and payments
- Constructed modules for patient registration, test booking, sample tracking, report management, and payment processing
- Implemented laboratory workflows for managing diagnostic samples, test parameters, and automated report generation
- Forged features to store and track patient medical records, test history, consultation details, and payment status
- Integrated online payment gateways supporting digital payments and automated billing generation
- Created dashboards for monitoring patient data, pending payments, completed tests, and laboratory operations
- Provisioned secure REST APIs for managing patient, test, and billing information with enterprise-grade authentication
- Collaborated with healthcare stakeholders enhancing system functionality and improving operational efficiency
- Deployed production application used by multiple healthcare organizations

Full Stack Developer Intern
AttainU

Dec 2021–May 2022
Bengaluru, India

- Provided full-stack application for 1,000 users with secure authentication and CRUD-based course management (98% uptime)
- Enhanced MongoDB with strategic indexing, improving data retrieval by 40% (500ms to 200ms)

KEY PROJECTS

Rajasthan Mock Test Series — *Next.js, Node.js, Express.js, MongoDB, Vercel*

- Optimized comprehensive exam prep platform for 50,000+ students with 99.8% uptime and 90+ Lighthouse score
- Orchestrated scalable backend handling 10,000+ concurrent users, executing real-time progress tracking and 100,000+ test reports monthly
- Deployed on Vercel with auto-scaling and zero-downtime deployments (60% reduction in deployment time)

EDUCATION

Master of Business Administration

2021–2023

Jai Narain Vyas University, Jodhpur (*HR Management & Finance*)

Bachelor of Engineering

2013–2017

JIET College, Jodhpur (*Electronics & Communication*)

CERTIFICATIONS & ACHIEVEMENTS

- Full Stack Web Development Certification
- Conducted 50+ hours of one-on-one mentoring sessions for 10+ developers on full-stack development and coding fundamentals
- Solved 150+ coding challenges on LeetCode focusing on algorithms and data structures
- Languages: English (Professional Proficiency), Hindi (Native Proficiency)
